

FIELD SERVICES ACCESS CONTROL SYSTEMS

Site Attendance and Access Control with ISNetworld Integration

Our cloud-based access control system gives you insight to who is on your property at a glance. Additionally, it can verify in near real time their current training and site access permissions.

- Compatible w/ HID Access Cards
- Integrate to 3rd Party Supplier & Contractor Management Platforms
- Support Scan Event Image Capture & Storage
- Access Gate Control

The prototype also integrates with Pillar Innovation's FieldServices IIoT platform. FieldServices.io provides the following:

- 24/7 Control Dashboard
- Customizable Views of All Managed Sites
- Site Attendance Overviews & Recent Scan Events
- Scan Event Management
 - Review Event
 - Record Resolution Information
 - Clear Event
- On Demand, Event Driven, & Scheduled Attendance Reporting
- Manual Override of the Access Gate
- Text & Email Notifications
 - Unauthorized Access Attempts
 - Authorization Anomalies
 - Report Delivery
- iOS & Android App with Full Dashboard Functionality
